### New for Schools

We know that music builds brainpower. Ready to Rock Kids also builds social and emotional skills while supporting character education. Upbeat, inviting songs by a child psychologist and award-winning songwriter teach positive thinking, respect, responsibility, including everyone, good manners, friendship, self esteem, best effort, honesty, kindness, and more. As kids bob to the beat, they don't even know they're learning! The songs are musically sophisticated and professionally produced; adults will enjoy them, too. The companion book includes activities that reinforce key concepts, reproducible activity pages, and complete lyrics.
